### Peer Evaluation

Every member of your group should fill out one of these forms. Be sure to clearly list all members of your group and include yourself. Think hard about each person, including yourself, and truly decide how much effort each member put into the project. For instance, if someone came to class unprepared, they could receive a 5 in cooperation and only a 2 in preparation. This is difficult! Be fair! Complete each section and write a total for each person. Please keep this form private and turn it in to your teacher when it has been completed.
